

LDM TECHNOLOGIES, INC. - BYESVILLE
BYESVILLE, OHIO

The LDM Technologies, Inc.- Byesville facility, of Byesville, Ohio, is part of LDM Technologies, Inc. The facility is a tier II manufacturer of horizontal injection molded plastic automotive parts, and also interior and exterior painted parts. The facility is certified to both ISO14001 and QS9000.

ENVIRONMENTAL PERFORMANCE

Past Accomplishments

The LDM Technologies, Inc.-Byesville facility has demonstrated its commitment to environmental performance through reduced total solid waste and total water use. Since 1999 the facility has:

- **Reduced total solid waste** 42% per year by starting a recycling program for plastic, cardboard and ppe in the manufacturing process.
- **Reduced total water use** 31% monthly by recycling water used to clean painting materials.

Future Commitments

LDM Technologies, Inc.-Byesville is working to reduce hazardous waste, total solid waste, emissions of VOC's and discharges to water. By 2004 the facility will:

- **Reduce hazardous waste** 47% by using a better recovery system, keeping better inventory, and implementing a new procedure for recovery materials.
- **Reduce total solid waste** 100% by beginning a new process to clean and recycle all absorbent material. Ultimately, the facility is looking to eliminate having to buy new material and eliminate taking materials to the landfill.
- **Reduce emissions of VOC's** from mix room 100% using a thermal oxidation process. The facility is also looking to reduce the emissions from the source.
- **Reduce BOD discharges to water** 100% via reduction of suspended solids in discharge

AT A GLANCE:

Industry Sector:	SIC 3089
Business:	Manufactures automotive injection parts and painted parts
Facility Employees:	100-499
Accomplishments:	Reduced total solid waste Reduced total water use
Commitments:	Reduce hazardous waste Reduce total solid waste Reduce emissions of VOCs Reduce discharges to water
Address:	110 North 8 th Street Byesville, Ohio 43723
